

SuperCote™

Longer lasting eyewear. Clearer vision. Improved eye protection.

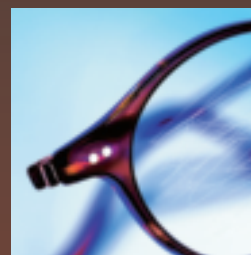

SuperCote™ for Superior Scratch Resistance

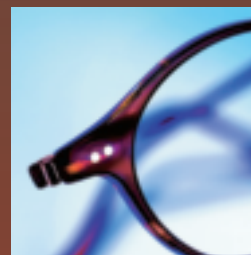

SuperCote™, AOSafety's new exclusive superior scratch resistant coating provides **unsurpassed lens protection and durability**, with more scratch resistance properties than regular hardcoats and tested to be superior to other super hardcoats on the ophthalmic market. SuperCote offers unrivaled adhesion and exceptional durability.

These attributes equal longer lasting eyewear, clearer vision and improved eye protection.

| Feature | Explanation | Benefit |
|---------------------|--|---|
| Scratch Resistance | Six (6) times more scratch resistant than uncoated lenses | Longer life of valuable lenses. Clearer, safer vision. |
| Thermal Resistance | No "spider web" cracks under extreme temperature | |
| Chemical Resistance | Coating does not peel off or become milky or cloudy under chemical influence | |
| Adhesion | Coating does not flake or peel under normal wear and tear | |

Plastic lenses with conventional hard coating will scratch under normal circumstances.

Lenses with SuperCote™ show outstanding scratch resistance.

The SuperCote process is applied to both the front and back surfaces of the lens. This process offers the same excellent scratch resistant properties on both the front and back lens surface.

The SuperCote process works on most lenses and lens designs. However, SuperCote is not compatible with some lens materials in the market. A current list of approved lenses can be found on our website at www.aosafetysrx.com.

How to Order

When placing orders with our lab for SuperCote, please indicate SuperCote by writing it in the space indicated below in the "Tint and Coating Options" section of our Rx order form.

| TINT & COATING OPTIONS | | | |
|--------------------------------------|--|-------------------------------------|--|
| <input type="checkbox"/> Transitions | <input type="checkbox"/> Anti-Reflective | <input type="checkbox"/> Clear | <input type="checkbox"/> Scratch Resistant Coating |
| <input type="checkbox"/> XtraActive | <input type="checkbox"/> Photochromatic | <input type="checkbox"/> Tint _____ | <input type="checkbox"/> UV |
| | <input type="checkbox"/> Polarized | | <input checked="" type="checkbox"/> Other SuperCote |

Care and Warranty

Each pair of eyewear with SuperCote lenses is supplied with our unique micro-fiber cleaning cloth and a one-year limited warranty.*

If you have any questions about SuperCote please contact your AOSafety Sales Representative or call 800.982.2828.

* A limited one-year scratch warranty is offered on SuperCote™ product. This warranty excludes work environments where lens scratching is at high-risk, including but not limited to, mining, grinding, and welding. All claims for scratch warranty must be returned to AOSafety for evaluation before credit can be issued. Limited to one replacement per order.
