- Adjustable Lens Angle
- Adjustable Temple Length
- Accepts Plano and Prescription Lenses
- Meets ANSI Z87+ and CSA Z94.3 Standards

# NEW EX™ SAFETY EYEWEAR

Lens angles and temple lengths adjust

Hinged and vented sideshields

Secure Grip™ spatula temples pivot to hold eyewear in place

Frame design provides lateral coverage and bridges orbital gaps

## No-Nonsense Performance.

With a durable, integral frame design and tough polycarbonate lenses, EX safety eyewear is built to withstand the everyday rough wear & tear of the industrial environment and provide maximum impact resistance. Hinged, ventilated sideshields offer extended coverage for added protection and enhanced airflow to help reduce fogging.

## No Other Model Offers More Adjustability.

EX eyewear allows wearers to "custom-fit" to their own comfort and wear preferences. There's a choice of nine lens angles. Temple lengths can be adjusted to four positions, too. Plus, the Secure Grip temples pivot to help prevent slippage and comfortably hold the eyewear in place during wear.

## More Standards = More Protection.

You just can't find a safety eyewear designed to provide more protection. EX safety eyewear doesn't just meet ANSI Z87.1 standards. It also meets CSA Z94.3 and CE high-velocity impact standards as well.
