

(((NEW PELTOR® PTL™ EAR MUFF)))

# JUST PUSH TO LISTEN

**THE ONLY MUFF THAT LETS  
WORKERS LISTEN SAFELY  
WITHOUT REMOVING  
THEIR MUFFS.**

**WHEN WORKERS LIFT THEIR MUFFS, THEY LOWER THEIR PROTECTION.**

Now Peltor puts safe listening at their fingertips.

Just push the button on the PTL muff and speech & sounds "outside" the muff cup can be heard "inside"-- clearly and safely. After 30 seconds, the muff automatically returns to its full protection with an **NRR of up to 26 dB**. Listen again? Just push again. It's that simple.

**AND LISTEN TO THIS:** The PTL muff is affordable. In fact it doesn't cost more than many standard, non-electronic models. The NEW PTL Earmuff from Peltor. Listening when it's wanted. Protection when it's needed.

- Extended Battery Life • Cap-Attached Model also Available
